

Empathy Map

Date	27 June 2026
Team ID	XXXXXX
Project Name	Smart Lender
Maximum Marks	4 Marks

Empathy Map:

The Empathy Map helps us understand the needs, thoughts, actions, and emotions of the primary users of the Smart Lender – Loan Eligibility Prediction System, including loan applicants and bank credit officers. It provides insights into their expectations, challenges, and decision-making process during loan evaluation. By analyzing what users say, think, do, and feel, the development team can design a user-friendly, transparent, and efficient loan prediction system that delivers accurate results, reduces processing time, and improves the overall user experience. This customer-centric approach ensures that the solution effectively addresses real-world problems faced by both applicants and financial institutions.
