Customer Journey Map

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Visits the Smart Lender portal. - Enters personal, financial, and loan details. - Submits the application.	- System validates the input. - XGBoost model predicts loan approval or rejection. - Risk score is generated.	- Applicant receives the prediction. - Bank officer reviews high-risk cases if required. - Loan is approved or rejected.
Touchpoint <i>What part of the service do they interact with?</i>	- Flask Web Application. - Loan Application Form. - User Interface	- Machine Learning Prediction Engine. - XGBoost Model. - IBM Cloud Backend.	- Prediction Result Page. - Credit Officer Dashboard. - Loan Status Notification.
Customer Thought <i>What is the customer thinking?</i>	"Will my loan be approved?" "Is my information secure?" "Can I complete this quickly?"	"Is the prediction accurate?" "How long will this take?" "What factors affect approval?"	"I'm glad the process was fast." "If rejected, what should I improve?" "Can I reapply later?"
Customer Feeling <i>What is the customer feeling?</i>	- Hopeful. - Curious. - Slightly anxious.	- Waiting. - Trusting the system. - Expectant.	- Happy if approved. - Motivated to improve if rejected. - Satisfied with quick processing.

Process Ownership <i>Who is in the lead on this?</i>	• Applicant. • Web Application. • Bank Portal.	• Machine Learning System. • XGBoost Prediction Engine. • Banking Server.	• Credit Officer. • Loan Approval Department. • Banking Management.
Opportunity <i>How can we improve this stage?</i>	• Simplify the application form. • Add input validation. • Improve mobile responsiveness.	• Increase prediction accuracy. • Explain prediction reasons. • Reduce processing time.	• Provide detailed feedback. • Send instant notifications. • Allow online document upload for reconsideration.
